Preface

International development cooperation has been playing an important role in development financing in Nepal. Nepal receives development cooperation from 41 bilateral and multilateral development partners. The development cooperation is mobilized through various mechanisms, including International Non-governmental Organizations (INGOs). The development cooperation mobilized through the Government system are reflected in the Annual budget of the Government and spent under national budgetary system. Other cooperation mobilized outside the Government budgetary system and executed by the development partners themselves or by INGOs are presented in the form of the Statements of Technical and Other Assistance. The Government of Nepal publishes the summary of those projects/programs in the Technical Assistance Book each year.

The present publication includes the projects/programs to be implemented in the coming Fiscal Year 2017/18 under the development cooperation received in the form of technical and other assistance which are not included in the national budget. This publication covers brief description of the project/program including major activities, total/annual budget, districts covered and development partners supporting the projects/program under implementation.

The information received from development partners, sectoral ministries and Social Welfare Council has been used as the primary sources of information in order to prepare this book. Further, information is complemented by data reported in Aid Management Platform (AMP) of the International Economic Cooperation Coordination Division (IECCD), Ministry of Finance.

It is anticipated that this publication will be useful to Government agencies and development partners to implement and monitor the off-budget projects/programs. Likewise, information presented in this publication could be beneficial to individuals interested in foreign aid mobilization in Nepal.
